REPRESENTATIVE IN
Buenos Ayres
Edw. F. Powers.

The above Company have acquired the Rights, Patents, Concessions, Goodwil and Interests of Frederick Alan Gower and Benjamin D. Mautner, as existing under a contract between them, dated July 20th, 1880, in the City of Providence, Rhode Island, in the United States of America.
It is now the purpose of this Company to extend Telephonic Communication to the Public of the City and Province of Buenos Ayres on a more thorough and systematic plan than heretofore attempted. To accomplish this they will supply the latest approved form of the Gower-Bell Loud-speaking Telephone with appurtenances for same of the most recent and perfect manufacture, and at the same time having at hand a thoroughly experienced and efficient staff of operatives and assistants, hope to attain such success as will bring them to the front as the First Telephone Company of the River Plate.
When a commercial, and even a social community have the full benefits of a well organized telephone system, it is only then the many and great conveniences of this wonderful invention are thoroughly understood and fully appreciated. It is the wish of the Company to effect this in Buenos Ayres, as has already been done in all large cities of the United States, where it is estimated more than 500 000 instruments are in use. In fact, if it should come into such universal use therein its loss would be more severely felt by the Public generally. The Company will introduce into this city the American system in its entirety.
The management would ask the kind indulgence of the Public for a few weeks, as much has to be done and many obstacles overcome before the proposed system can be put on a satisfactory condition, and at the same time he beg to state it will be his utmost endeavour to give as perfect a service immediately as is consistent with the multitude of work on hand.
As Buenos Ayres is a city of magnificent distances, the new Bell Telephone will be found in its working the most practicable as well as the simplest and strongest instrument ever invented, and it was on account of these favorable and self evident qualities that it was especially adopted as THE TELEPHONE for the Telegraph Department by the British Government, who have contracted with the above named Company for 1,500 instruments. It is also extensively used in France and Belgium, where it has given general satisfaction.
The Company has secured the fine and commanding premises situated at 128 Calle Florida, where it would be pleased to exhibit the working of its system to those of the public who are interested in the development of this great time-saving invention.
Subscriptions to Exchanges, $175 per month.
Private Lines, special terms on application.
Any further information the Local Representative would be pleased to give personally or by letter.

SECURITY OF THE FRONTIER.

We are not amongst those who are continually nagging the Government and trying to discredit it every time a band of Indians or Gauchos run off with a score or two of mares. We know very well all the difficulties attending the protection of a long line of frontier from the depredations and incursions of Indian light cavalry that move with the celerity of Cossacks. We know that even in the United States they have not been able to protect in all cases their frontiers from the attacks of the warlike Comanches and Apaches. We are not hard on the Government. We do not insist on impossibilities, but what we do most certainly insist upon is, that the Minister of War shall make a proper use of the elements he has at his disposal.

A couple of years ago we had a straggling wretched frontier, with numerous hostile tribes in all directions. An army of ten thousand men might have been lost in the desert and never come into contact with the savages. To subdue them seemed to be an impossibility. Each War Minister that came into office for a quarter of a century tried his hand at the Indians, and all failed until Alsina came to the front. His ideas were considered lunatic by his conservative political opponents; but General Roca proved that the great problem was easily solved. It was simply cutting the Gordian knot with the sword. A few months of energy, valour and judgment were sufficient to clear the whole of the Argentine territory, north of the Rio Negro, of their savage denizens.

But the present War Minister is very much mistaken if he fancies that the great triumph of General Roca has liberated our present frontier from Indians for ever. He must be very shortsighted if he does not realise the fact that a vast number of exasperated savages are still outside of the fortress of Martin Garcia. He has not got all the Patagonian Caciques breaking stones there. The public will be apt to remind him that no Argentine War Minister has ever found himself in such an advantageous position as the present one. We have a well-defined frontier, practically secure against the Indians, that are of course still in great numbers north of the Rio Negro. We have a compact, well disciplined army of infantry, cavalry and artillery, and we have the same chiefs that so ably aided Gen Roca in his great campaign.

If, under these circumstances and with the elements that no other Minister or Government could dispose of, our present Minister of War cannot secure the safety of our frontiers, why, we fear, that the public may say he is not the right man in the right place.

The confidence of the community was unlimited in the capacity of the Government to insure the safety of the great zone of territory wrested from the savages. Sheepfarmers and estancieros boldly emigrated to the very borders of the Rio Negro, confiding in the power that had already done such wonders. They are finding to their cost that, after subjecting or destroying fifty tribes, the Government is resting on its laurels and the Minister of War viewing with indifference the Indians strengthening themselves and carrying their raids into our populated regions just as formerly they were accustomed to do.

LONDON LETTER

(From our own Correspondent)

THE CRITERION BARMAID.

December 29, 1881.

The adjourned inquest on the death of Miss Emma Cummins, aged 23, described as a very handsome young woman, late a barmaid in the service of Messrs. Spiers and Pond, at the Criterion, in Piccadilly, took place this morning. The court was thronged, and many of the persons there were said to be in an elevated position in society.

Deceased left on her table a paper which was a letter, and on which was written, 'To be given to my sister after I am dead. The letter to Mrs. Harrington, deceased's sister, was to the following effect:—'I have made up my mind to kill myself, as I can't continue to live in this terrible pain. I may be ill for weeks, months, or perhaps years, and never get better. You know the worst now. You know the man who has caused all this and do not spare him for his cruel conduct to me, for he has killed me. If this shall be a warning to persons who will be tempted, to avoid such, I shall not die in vain. I hope that my mother and father will forgive me. It seems so hard for me that for one wrong act of my life I must close it. I only wish that the stuff will prove fatal. If I could see a ray of light through all this darkness I would try and live—Emma.'

In the evidence Lieut. Ponsonby, R.N., and relative of Major-General Ponsonby, the Queen's Secretary, stated that he abandoned the girl, he said, after staying with her three days at the apartments he had taken for her in Oxford-terrace, because they did not get on well together, although they had no absolute quarrels. Being pressed on this point he said he did not wish to say anything against the deceased, but one thing she said was, 'that if he left her she would ruin him.' He denied that he had offered £25 a month, but had said that it would cost them that sum to live. He did not intend to abandon her, but on the advice of his friends to separate from her.

Many of your readers who have been in London would remember Miss Cummins, a fair-haired girl of middle height, who stood at the Criterion bar, near the manageress, and generally had a knot of idiotic young men about her.

The Jury, after about half an hour's deliberation, returned a verdict stating that the Deceased committed suicide while in a state of unsound mind, produced by the miserable and unfortunate condition in which she was left by Lieut. Henry Ponsonby, with whom she had arranged to live. The formal verdict was followed by the following expression of opinion:—

"The said Jurors desire further to express their intense feelings of disgust and abhorrence of his conduct towards the Deceased, as they consider him guilty of her seduction and subsequent desertion, which they believe led the Deceased to commit suicide: and they are further of opinion that the said Lieut. Henry Ponsonby, although not legally, is morally responsible for causing the death of the said Deceased, and that he is worthy of the severest censure."

The Coroner, after reading the verdict said—The Jury desire me to censure Lieut. Ponsonby for the part he has taken, and in doing so I will say as little as I can, as it is unnecessary for me to travel over the facts and details. The inquiry has been one of the most painful which it has been my province as coroner to preside over. If any one feels distressed and vexed at the death, it must be Lieut. Ponsonby himself. He must feel that he has committed a grave error, and that he has done a grievous wrong, first of all by promising to provide a home for the Deceased, then by seducing her, and then by leaving her. For what reason he left her except that they could not agree, we do not know, but he produced in her mind feelings of intense anguish which caused her to commit the fatal act. I think the jury quite right in stating that the death was morally caused by Lieut. Henry Ponsonby. The jury in returning the verdict have expressed in the strongest language their feeling, and I trust, Lieut. Ponsonby, this will be a warning to you for your life, and I trust you will repent of having caused the death of this unfortunate girl.

A large crowd collected around the approaches to the court, in the hopes of seeing Lieutenant Ponsonby; but his friends judiciously advised him to remain for a while until the excitement had somewhat subsided.

At the Mansion House this afternoon Mr. Tickell, barrister, attended before the Lord Mayor, and said he appeared in support of a summons against the Marquess of Huntly, K.T., for obtaining the sum of 2418*l.* from Mr. Benjamin Nicholson by false pretences.—The summons was returnable for to-day, but the summoning officer had called at the Marquess's residence in Portman-square, and also at his club, the Devonshire Club, but had been unable to effect a service of the summons. The officer was told that his Lordship was out of town, and they had since communicated with his solicitors but had been unable to obtain any information. The Court was in possession of the whole of the facts of the case. The Complainant has also communicated with the agent through whom the money was obtained, and he had informed them that the last time he heard of the Marquess he was in Constantinople, and he had reason to believe he was now in Russia. Under these circumstances, as it was clear the noble Marquis was keeping out of the country, he (Mr. Tickell) had to apply for a warrant, in order that extradition proceeding might be commenced. Some discussion ensued as to the advisability of adjourning the application, in the course of which the Lord Mayor pointed out that there had been some civil proceedings under which part of the money had been obtained, and there were also Chancery proceedings pending with reference to the charges upon the property. In those circumstances he thought there should be an adjournment.—Mr. Tickell explained that the civil proceedings had not been taken by his client. It was not till after those proceedings that the alleged fraud was discovered by the Prosecutor.—Eventually the Lord Mayor adjourned the matter till the 12th of January, when, he said, the application for a warrant should be renewed, and certainly, if the Marquess did not then put in an appearance, it would make the grounds for it stronger.

The Procurator Fiscal of Aberdeen received to-day instructions from the Home Secretary to publish the fact that a reward of 100*l* will be granted by the Government for such information as will lead to the detection of the persons who stole the remains of the late Earl of Balcarres from the tomb of Dunechet; and that a free pardon will be granted to any person who, not being the actual offender, was an accomplice in the crime. At the same time it has been intimated to the authorities that the Balcarres family will add 500*l*. to the reward. This handsome reward will, it is hoped, lead to immediate revelations, since it is an assured fact that there are at least two persons in this district who know the circumstances under which the crime was committed, and where the body has been laid. These persons are known to the police, and there is not the slightest doubt that great pressure will be brought to bear upon them to induce them to state all that they know. They are persons with whom such a reward will have a powerful influence. The feeling in Aberdeen now is that the solution of the mystery is at hand, and startling information may be looked for at any moment.

ROSARIO.

(From our own Correspondent)

Jan. 27th.

The row in the teapot has culminated in the *Standard* translating and publishing Mr Pizarro's chaste letters. How evident it is you are an Irishman, Mr *Standard*. You have the national instinctive love for a fight. You have translated the letters 'con amore'; in fact I congratulate you on making them more readable in English than in their original Spanish, which I cannot say enchanted me. But I do not admire your being so down on Mr Sarmiento. His age, his talents, his patriotism and his indomitable moral courage deserve the respect of every foreigner. Dont let your characteristic love for a free fight lead you to be unjust to the old gentleman. Then again your favorite bruiser, when it came to the pinch hardly realized Irish pluck. A countryman of yours, after using hard words to gentlemen, is always ready for pistols and coffee at six. So, Mr *Standard*, I am sorry to say I am not quite satisfied with you,

Can be used with COLD WATER. Sole agents MOORE and TUDOR. BEWARE OF IMITATIONS AND FALSIFICATION.

Your bellicose propensities have led you to sympathise with the wrong man.

Had the duel come off, the Minister could not have failed potting his opponent, on the principle that any one can hit a barn door. It is true an Irishman invented an ingenious manner of equalizing the chances in similar cases. The breath of the spare man was to be marked off with chalk lines on the person of the stout man, and all hits outside the lines were not to count.

It never rains but it pours in this country. We have been up to the present time, and goodness knows for how much longer it may last, drinkin unfiltered Parana water, and a large number of people, well water, which contains, according to the modern school of Doctors hydrogen and oxygen mixed with typus fever. Messrs Saenz Peña and Bengolea at last came forward with a proposition for water works. No sooner was their scheme a little advanced than a Mr. Bordes, from your city, presented another, and then Dr. MacInnes, as agent for a thundering big Yankee firm, presents a third that threatens to take the wind out of the sails of the other fellows. It is stated, although I do not believe it, that the American company offers to supply, through one set of pipes for half an hour every day of the year, brandy and soda deliciously iced. Should this be a fact this is the company that shall have my strenuous support, and I shall ask the *Standard* to assist in the good work.

As your Tuesday number does not mention any strong storm on Saturday night, we know that the fearful hurricane that visited this region must have been limited in its breadth; probably a dozen miles on either side of Rosario. In town it wrecked a mill and maccaroni manufactory, knocked down the Grand Stand on the Race course, and blew to smithereens a number of 'ranchos.' Windows were smashed in abundance, and the solid walls of the houses were swayed in such a manner as to loosen the azotea roofs, and almost every roof in town now leaks. Mr Thomas' mansion at Carcaraña suffered considerable damage, and his quinta also suffered. A coasting vessel from Buenos Aires to Santa Fe, loaded with machinery and lumber, was turnd wrong side up, the captain and one sailor being drowned. The lumber in the hold kept the keel above water, and the craft will probably be saved. The port of Rosario is so secure that no damage was done amongst the shipping. On Tuesday night we had another fearful storm and the rain fell in torrents; thunder and lightning were incessant for five or six hours. The preceding day was the hottest we have yet experienced.

A large alligator is paying a visit to our port; it has been seen by several persons, and made a dash at a boy who was bathing, who scrambled ashore and ran home without clothes, he was so scared. It is not often that the Rosario port is honored by such a distinguished guest They are plentiful enough, however, in the lagoons of the San Javier, above and around Santa Fe. It is not generally known that the males of the species in our rivers possess a pellet of exquisite musk of the size of an almond. I have been in possession of one, taken from a grim old fellow I shot on one occasion, for many years, and the perfume is as strong as ever. The alligators or 'yacares,' the Guaraní name for them, sometimes attain the length of nine feet, but their usual dimensions here are from five to six feet, and their disposition is by means gentle.

The works on the Tucuman and Salta extension appear to be not altogether in apple-pie order if we may place any faith in the denunciations of the Tucuman papers The *Debates* says there is nothing but wasteful extravagance, no order, and every thing left to Providence. On the section No 1 instead of 800 peons there are now only 80, but nearly all of the 'capataces' of the 800 have remained, so that there is an employee for every 5 peones. The above paper states that bricks that should cost only thirty dollars the thousand, will cost the Government seventy, and asks what will be the probable ultimate cost of the line to the nation.

I have always on principle opposed the making or railroads by governments in these countries. It is almost an impossibility to make them so well or as cheaply as a contractor would do it. What could be more satisfactory than the extensions to Rio Cuarto and Villa Mercedes, built by Mr. Stewart and Mr. Rogers? Chile, the most economical and honest government in South America, insisted on building the Valparaiso and Santiago line officially. The work that Mr. Wheelwright offered to conclude in five years for six millions of dollars, cost the government fifteen millions of dollars and fourteen years to terminate.

Mr. Eggington and his family, and Mr. Hall were welcomed by their numerous friends on their return from their trip to Europe. Mr. and Mrs. Duguid leave soon to take passage in the Guadiana.

EDITOR'S TABLE.

Pizarro, Sarmiento, the Republicans and 'toute la boutique' were completely snuffed out yesterday by Gambetta. Nobody on or off Change spoke of any other man. All our Argentine colleagues had leaders on him; in the street, the clubs and salons it was Gambetta, Gambetta, Gambetta. Most of our French subscribers say they were fully prepared for his fall from the moment the telegraph announced that he intended to make a Cabinet Question of the Reform of the Constitution. Our Gallic colleagues say that he deliberately committed Ministerial suicide, by raising such a burning question, knowing the Chamber was against him. If he did, there is not much of the great statesman in him. His fall, however, is a very important event just now, when European politics are beginning to look rather dangerous again. It is not probable, however, that Gambetta's fall will be like that of Lucifer and Wolsey: France is pretty sure to want him in the future.

The mails by the Bordeaux packet Equateur will be here this morning. The latest dates are to 8th inst. At Banis Mr Herbert Gladstone said he hoped the Government would soon be able to relax Coercion in Ireland. Several female Land Leaguers have been arrested Sir Henry Bulwer is the new Governor of Natal. Attempt made to steal the body of Napoleon Third and the Prince Imperial at Chislehurst. Rumour that Austria, England and Spain will hold Congress about the Papal Question. Nihilists buying tons of dynamite in Hamburg.

People were so taken up with poor Gambetta yesterday that our local Ministerial crisis was forgotten. Up to lunch hour there was nothing fresh. Many think that things will remain as they are till about the middle of this week, when there will be another portofolio (Interior) vacant, and then the President will fill both up and the Cabinet coach will be full again, inside and outside.

The French Saint Cloud Fete for charity commences to-day at Biekhert's Beer Garden at the Retiro. All town will be there. The fun will be resumed next Thursday, next Sunday and on Monday, and by the latter date we expect that the state of the pockets of all masculine visitors to the Beer Garden will be accurately represented by the initials M.T.

We return the eminent Director of the Cordoba Observatory, Dr. Gould, our best thanks for the second volume of his 'Anales de la Oficina Meteorologica Argentina' which he kindly sent us yesterday.

An awful campfire at Tres Arroyos is announced; 60 leagues swept by fire; 3,000 sheep and 12,000 cows roasted, and posts, wires, puestos, etc, all consumed.

The famous necklace with forty diamonds was sold at Baltar's on Friday for $27,000 m/n. A dead bargain. Mr. Edward Casey was the lucky buyer.

The Archery Fete is on again to-night at Flores. Some of the artists of the Guillaume and Chiarini troupes will give a grand acrobatic performance.

Part of 'Editor's Table' is in our Supplement to-day.

The Perpetual Motion man was who to the fore last week has come to grief, like Gambetta. The Minister of the Interior, before taking the matter into consideration, asked the discoverer for a little more information; this the latter refused to give so he was bowed out, About two years ago a *Standard* Subscriber discovered Perpetual Motion but refused to tell a word about it to a living soul, excepting Her Majesty the Queen. Shortly after, we heard that he had started for Windsor, or Bedlam, or both.

The telegram from Chile announcing that the Division at Tarapaca is to be disbauded is considered proof of the secret treaty of peace with Bolivia, as the Division in question was created to watch the Bolivian army.

Telegrams from Mendoza report that our distinguished countryman Major O'Donnell has made a very successful expedition against the Indians, and acquired some valuable information as to the future intentions of the tribes on both sides of the Cordillera.

The *Patria Uruguaya*, Santos's organ at Montevideo, publishes an eloquent article showing the great progress made by the Argentine Republic under Dr Avellaneda's administration and its fabulous increase of credit abroad under President Roca.

There was a terrific row in the Montevidean Chambers on Friday, caused by personalities exchanged by Deputies Torres and Honore. Shouts, yells and 'mueras' rang through the hall, and there was a general fumble in back pockets for revolvers, when Deputy Bustamante rose and succeeded in throwing oil on the troubled waters. The great heat is putting everybody in the Plate in most irascible humour.

The Rosario papers say that the Locusts are swarming all over that department and have eaten up everything: the quintas in and near the town are stripped to the last leaf. On the Saladillo several camp fires have been caused by efforts to destroy the devastating insects.

Every town in the camp seems bent on following the example of Flores and Belgrano and having water works. Azul is the latest aspirant in the field.

While two ladies named Mata (mother and daughter) were at their prayers in Rosario during the thunderstorm on last Wednesday night, a flash of lightning passed between them without injuring them in the least, and, having smashed a few things, disappeared through a hole in the wall. Can Mr. Edison, or any other man, explain the vagaries of the electric fluid?

We are all a little inclined to think no 'papas chicas' of our progress in the railway line in this country, yet what is it after all when we read such a paragraph as the following from the New York *Bulletin* about the railway-laying in the Great Republic last year:—

"The year now drawing to a close has been a phenomenal one as regards the construction of new railroads at the North-West, in evidence of which it may be stated that during the eleven months ending 1st inst., 2,801 miles of new track were laid down, against 1,478 during the corresponding period last year. We have not as yet statistics applicable to the South-Western States, but the new trackage laid down in that quarter, it may be safely asserted, has been considerably in excess of that of any previous year."

One of the 'comparsas' preparing for Carnival is 'Los Duelistas'. The idea has evidently been suggested by recent local events. Anything tending to throw ridicule on duelling will do good. Ridicule has eradicated far more abuses than legislation, the sword, or anything else that we know of.

We have said it, and now say it again. The Buenos Aires Post Office is not a model one. We saw yesterday the envelope of a letter posted here in November, and directed in a handwriting so good that it resembles copy-plate, to a gentleman at 'the Grand Hotel, Sao Paulo, Brazil.' The letter, we suppose, was thrown into the wrong bag here; at all events it reached Paris on 17 Decb, Basle on 18, back to Paris on 20, then to Rio, reaching Sau Paulo on 14th Jan, and finally got back here, as the owner had left Sau Paulo. It is clear enough that the mistake occurred here, where the sorters should be admonished to be more careful. The 'try Basle' of the Paris Post Office is very rich, but one of the weakest of the weak points of the average Frenchman is geography. He despises it, or it despises him, but in either case the two are on the most distant terms—a sort of 'how d'e do? hope you're well' acquaintance and nothing more.

Mr. Pia, the well known Anis maker, sent round a very nice little book almanack yesterday, on every page of which the virtues of Anis are sung in prose and verse.

A beer pic-nic comes off to-day at Adrogue where the first stone of a new Townhall will be laid. The public are invited. No cards, and no 'entradas' to pay.

The new Plaza Once railway station is almost as difficult a question as that of finding a new capital for the province. The works were to have commenced last week, but the contractors have drawn back and new bids must be called for.

Paris 27th.

The collective resignation of the Gambeta Ministry has been accepted.

Up to this hour nothing is known of a new Ministerial combination, the formation of which, as things stand, may cause serious difficulties.

Rome 27.

Government was interpellated today by the Chamber of Deputies to know is there any truth in the rumour circulated about the serious illness of General Garibaldi.

In answer Council President Sr. Depretis said that he understands perfectly the anxiety of the public in this respect, and consequently shall give orders to publish daily bulletins about the state of health of this illustrous General, at the same time he has the satisfaction to announce to the Chambers, that according to latest telegrams, no serious danger is apprehended at present.

For better precaution, the General has been brought to a village called Monte Posilipo, where it is expected that the purity of the air and the temperate climate will contribute to alleviate his sufferings.

Very much gold was thrown on the market to-day, as could be seen by the operations at the ring; large amounts also changed hands privately, showing that there is much more available gold than at first supposed. The Provincial Bank also continues to discount in gold, and sales for cash are weak in consequence. Very many parties are, nevertheless, distrustful and secure gold on time at a relatively high premium; they foresee a danger in the market at long dates and act in consequence. Rates to-day show a difference of 10 per cent as compared with prices paid yesterday morning. Prices for cash opened at 25.10; they fell to 25.05 buyers, sellers offered 25.07½. For end of the month very large amounts were sold at the ring and out side at 25.10. Rates at long dates rose and look firm; for end of march prices opened at 25 35 and closed at 25.40. Some heavy operations were effected for the middle of the year end of June and of July at 25.50. The rise in prices for long dats is attributed to an uneasy feeling as regards both financial and political prospects in the country. Mr Pizarro's letter this morning was very virulent and brings the light of other days around us, but many devoutly hope that the correspondence will soon terminate.

In spite of the weakness noted in Cedulas, the prospects of the Stock in the market are good. The present weakness in Series A is considered by very many as merely transitory, owing to fears entertained of a rise in gold The fall in Cedulas of Series E has been simply extraordinary, and the fall is altogether too sudden: prices in this Series have weakened since yesterday, making a fall of 6 per cent in two days. We remark that new buyers are entering the Cedula market, and many intend to secure Seria A at present rates. The business done to-day was more important than yesterday, but still it does not amount to much Few people anticipated this fall in the Cedula market, and considered the stock firm at quotations of the beginning of the week Series A was slightly weaker than yesterday, falling for the end of the month; some operations were effected at 99⅝. The market closed pretty firm at present rates.

The turn in the National Bank Share market is accentuated and the situation looks very bullish The bulls who sold out so strongly yesterday bought in heavily to-day. The efforts of the bulls are strenuous and they have managed to make the stock firm in appearance. The speculation for end of February is assuming larger proportions. Operations for cash are very rare, owing to the approach of the end of the month, and few Shares can be secured. The bulls are trying to make the best out of the situation, and the differences of yesterday—4 per cent in a few hours—are expected to fall heavily at the final liquidation of the month. Little attention is paid to the approaching meeting of the Shareholders of the Bank, as the large amounts of the shares are now floating in the market for speculative purposes. The fall of yesterday has, nevertheless, seriously shaken the confidence of the market, and many view the situation of the stock with apprehension.

Something was done to-day in National stocks; some 10,000 National Bonds of the emission of the year 1863 were sold at 87. The last sales made at this quotation.

There has been some exchange passed at 50d. The market is quiet and little is doing.

Gas Shares and other stocks, nothing done at the ring.

It will be seen by notice in another column that the well known house of John Shaw has been changed to Juan Shaw e Hijos Mr. John Shaw Sen. having taken his sons Juan, Diego, and Alejandro in as partners in his business.

The sales at the ring were—

The telegram from Montevideo posted on the board attracted much attention, owing to the large sales of wool announced on same. Wool men don't believe in the prices, and the telegram from Havre is old.

The arrivals in the Once this morning amounted to 9,000 ar. More wool has gone to deposit, and artistas are keeping aloof until the Antwerp auction decides the situation. There is so little doing in the Once that the artistas pass the time smoking and chatting; some of them still continue to buy on account of some heavy export houses.

Mr Nash and Mr Church were welcomed on Change to-day.

The Provincial Bank has swept the market of exchange at 50d and 5.30. Private banks have withdrawn before these rates. There was some talk on Change in reference to the attitude of the Bank in view of the rise in gold; it was pretty generally said that the Bank would raise its rate of exchange in paper to 50d should the premium on gold rise any more. Exchange on Montevideo ⅛ o/o premium drawers, ¼ o/o takers.

At the end of next week much activity is expected in the flax market, as the harvest will be finished by that time. The crop cannot be pronounced satisfactory in view of the quantity of seed damaged and stained by the heavy rains Many miscalculations have been made this season in the yield and quality of the flax sown.

Mr Mitre was welcomed on 'Change on his return from a trip to the Western camps, round about Pergamino, Rojas, Salto, etc; camps and animals in splendid condition. Mr P Ham and party had left for the camp 25 leagues outside Rojas on a deer and ostrich hunting expedition. Last Tuesday a tremendous storm burst over Rojas, accompanied with hail, doing some damage to the chacras.

Messrs Schwartz & Co. have informed the Municipality that they are quite able to make the new metallic curtains for the B Aires theatres, in view of the danger of any conflagration. They can make the curtains of child steel, and can be so placed that they may be raised inside or outside the theatre.

To-day Baltar & Quesada's auction mart was crowded although the sale was one of silk dresses and ladies' handkerchiefs, we saw money brokers and estancieros present, the bidding was very spirited. Italians bought up the dresses, whilst the jewelry went to the estancieros; the dresses looked beautiful and have graced many a Buenos Ayrean beauty.

The Administracion of Sellos Nacionales now sells stamped paper, instead of the former routine adopted, when the documents had to be presented and stamped in the office. The measure is a good one.

At afterhours some business was done in gold at 25.05. In National Bank Shares the firm tendency of official hours continued and 10 shares were sold at 128½. The market closed as follows:—

For end of month 128½
" " February 130

It was stated today that much money had been lent out yesterday, and to-day on National Bank shares at higher rates; this may account for the firmer tendency of the market but it is always a ticklish basis to speculate on borrowed money, in spite of the guarantee given. Many of those who sold yesterday were seen buying in heavily to-day; many are trying to-day to cover sales for end of the month of February.

The *National* gives some very alarming news from Juarez, Necochea and Tandil. Our colleague states that 60 leagues of camp have been burnt since of the stock on these camps has perished.

It has been finally decided to create 3 branches of the Provincial Bank in the suburbs of this city.

The Villarino arrived yesterday in Patagones.

Telegrams from Montevideo announce the sale of two cargoes of salt—one of the Santa Elena in Montevideo at 6½ and another for this port at 7½.

Patagones is to have a mole at last. The Minister of War has purchased the necessary materials and the sailors of the Villarino are to lay down posts and all. The wharf there is badly wanted, and more so since the arrival of General Villegas's troops; the commerce of the little town is increasing wonderfully.

Our readers will regret to hear of the demise of the well known barraquero Mr Rolatz; he died last night of consumption. His death leaves a void among a large circle of friends.

The auction of the Lomas testamentaria, consisting of four fine English properties, did not come off; no bidders.

The receipts of the Custom House are increasing daily. Scarcely a day passes that the figures do not exceed 100,000 pats. This shows renewed activity in imports. Should the receipts keep up like at present we may anticipate no deficit in the budget. The receipts yesterday amounted to 135,000 pats, a figure seldom reached in 24 hours.

It is reported that a private party has made a proposal to the Camara Syndical to erect a new Bolsa, on the basis of the late proposals in the matter. The party in question it appears pays one half the expenses, the Bolsa is to meet the other half of the outlay. We think the Camara Syndical should take the matter in hand themselves; a new Bolsa is badly wanted and the numbers of members are constantly increasing.

Advices from Patagones give interesting details of the late brush with the Indians at the Fortin Medanos, near the meeting of the waters of the Limay and Neuquen. The fortin occupies about half a square of land on a commanding position, near a pass of the Neuquen river; from this fort the eye sweeps the wonderful horizon. The place only deserved the name of a fortin, owing to its fine situation, as fortification there were none, and the two 'ranchos' on the eminence were so to say undefended. The garrison comprised Captain Gomez at the head of 20 troopers. It must be remembered that this line of frontier has been twice attacked, in the latter six months of 1881, but the Argentine commanders repulsed the savages each time; communications had subsequently arrived announcing that our subscriber Shah-huine with two other Caciques was organising a well matured attack, sending forward as vanguard small detachments to make a feint invasion and turn the attention of the troops off the main body. The Argentine officers had thus ample opportunity to prepare, but the Medanos was not as well garrisoned as subsequent events proved as it should, since with a few hundred more Indians the fort would have been seized and the savages would have invaded the inner lines. The Indians, about 800 strong, advanced in front of the fortin; 400 savages were detached from the main body and ordered to attack; they galloped up at full speed and attacked the small fort furiously. Some dismounted and lance in hand fought with the troops; the Captain of the garrison was thus wounded. Forty Indians were killed in the fray, the remainder took to their heels slowly, taking with them their wounded. Only two soldiers were killed. The troops behaved in a splendid manner, but no mention whatever is made of the telegraph men, supposed to have been resting in the fortin at the time. People on the Rio Negro entertain hopes that this second Nahuelhuapi expedition will finally put an end to the invasion of the savages down there. It appears that the same Indians of the Fort Gunner Conesa on the Rio Negro are very much flustrated with the treatment at the hands of the authorities of the Governorship of Patagonia, and many of them, leaving everything behind them, pass to the Northern banks of the river where they are more secure and under better authority The circumstance is a kind of pride to future danger, and the National Government should see if these reports have any foundation.

Mr A Grumly, late torpedo officer in the Argentine Navy, left in the steamer Plate for Europe.

The Nord America brings 850 emigrants from Italy, two other steamers are expected soon from the Mediterranean with 1,300 emigrants on board. It is very probable that the emigration returns for the current year will be much larger than for last. The great advantages of this country in climate soil and institutions should attract vastly more emigrants. Europe as yet knows little of this country, and the little known is bad enough Every work published on the R Plate only accentuate the belief that this is a country of revolutions and insecurity of life and property. Until these prejudices are removed the returns of the Immigration Department will not amount to much, Italy up to the present is the only European nation that sends emigrants here; from France there come few, from other countries none, in spite of the emigration agents. Commissioners of emigration are useless unless they carry in the pockets the title deeds of farms in Misiones, the Pampas or the Chaco.

Sr. Dantas, Chief of Police, is the best policeman in the Province, and it is now reported that he intends scouring all the camps in the South, about Curumalan and the Sauce Corto. This is good news for our countrymen settled in those distant parts. The "gauchos malos" must be removed, and with them all the so-called tame Indians on the old frontier lines; the very best plan for them all is South of the Rio Negro, they might be conveniently settled at Puerto San Antonio, where Governor Alvaro Barros might turn them to account in digging into the bowels of the earth in search of Artesian water sources. All the invasions in the South of this Province are carried out by these very same Indians and outlaw gauchos.

Our enterprising colleague the *Nacion* publishes the following commercial telegrams:—

Messrs Richard & Co. have sent in to the Municipality a petition to erect a market in the Calle Callao at the corner of Corrientes The Municipality should grant the request on condition that besides paying yearly for the concession, the contractor builds all the stalls in the style of European cities; vegetables and fruit and meat should all rest on marble slabs. Nothing is so characteristic of Buenos Aires as its slovenly and dirty markets, attended by stall-owners with greasy clothes and servant girls with trains to their dresses, sweeping the streets; so very different from what one sees in Havre or in Paris; the very sabots of the Normand girls are better than the patent leather boots of those who preside at the stalls of the Buenos Airean markets. Cleanliness should be exacted in every market, and nothing is so repulsive as the aspect of the Lorea, Artes, or Florida markets, burdened with refuse and spreading odours of disorganised matter. The efforts of our Lord Mayor should tend in this direction as well as to the security of high life circles in the theatres and churches.

Procederemos a vender por orden y cuenta de un dueño, bajo la ínfima base fijada, una fracción de campo situada en el partido de Juarez, conocido por Fortin de Las Saladas, campo que servio hace infinitos años de invernada a las caballadas del General Rivas y que este subio como campo su valor y porque los indios lo usaban anteriormente para ese objeto para invernar de las hacienda. Estos datos le quitan mas bien al publico para que tenga noticia exacta sobre la bondad de los ricos y abundantes pastos de este campo.

La laguna llamada Las Saladas de agua potable y de 4 cuadras por 3, posee verdantes de primer orden y no se ha visto nunca seca, y asimismo existe en el limite del campo La Totora existe otra laguna de importancia.

Este campo linda con la estancia del Sr. Santa Maria, Mariano Roldan, Zabala, Bernardo Arriaga, Jose Maria Nunez, Pedro Riza y Leloir.

Llamamos la atencion sobre el bajo precio fijado como base, pues el campo lindero llamado La Totora se vendio el año 76 en mayor precio que el fijado hoy por este, ademas recordamos al publico la venta ultima de las Lomas de Laria por la cual se ha obtenido a razon de 1,050,000 $ por legua.

La galera que va del Azul a Bahia Blanca pasa por la posta La Gloria que esta dentro del campo del Sr Santa Marina lindero al que ofrecemos.

Quedan aun a pegarse 4 letras al Gobierno por valor de 20,000 $ cada una.

Property of
Mr. WYSOKI, C. E.
At our mart 51— SAN MARTIN—51
Base of sale $15,000 m|c
On Saturday, February 4th
At 3 p.m.

We shall sell for the highest offer over the base this splendid and admirably situated property, only 6 squares from the town of San Martin, in the partido of that name, and only a short distance from Olivos, which it is presumed will be made the future Capital of the Province.

It should not be forgotten that the law is sanctioned for making a macadamized road from Belgrano to the Tigre which passing through Saavedra will shorten the road to this beautiful Villa.

The Villa is known as the new or white house of Mr. Wysoki. The ground is 10 squares by 6160 vs or say 231,6|6 vs.

The house has 7 rooms on the ground floor with a terrace and 5 rooms on second storey with French tile roofs, kitchen, room for cook, dairy house, store room, apartments and kitchen for peons, pout y house, three rooms on ground floor and 3 on second storey with galvanised iron roofs, corrals of posts and boards, corridors with French tile roofs, wire fences with sundubay posts, and also in some parts cinacina.

The property is mortgaged to the Mortgage Bank for 26 000 pesos.

The deeds in perfect order.

The Villa can be visited by taking the Campana train to San Martin and from thence by carriage (charge $10) to the house.

On Wednesday February 27th
at 12 o'clock

We shall sell the above breeding establishment so justly famous for the many victories achieved on the turf by the excellent animals bred there.

Fanciers are well aware of the audience and untiring zeal displayed by Mr Reid in forming this stud farm, as he selected animals of this country, animals of great merit which have been under the immediate charge of Mr Church. So soon as there an opportunity of this kind offered, and this is due only to Mr Reid's determination to retire from business.

Zuane, San Jeane, Venus, Toscas, Pichon, etc, have given on our races courses ample proof of their blood by carrying off the highest prizes. With such facts before us, it would be quite superfluous to praise the breed of Las Barrancas.

N.B. There will be a special train and carriages at the station to take out and bring back all parties interested.

300 Squares of extra-superior Camp

The richest and most complete in the neighbourhood of the Capital, land high, and undulating and consisting of beautiful vales, water permanent, fruit and soil suitable for agriculture, will be sold in small lots or in one lot. The attention of agriculturists is directed to the fact, that the camp is on the river Conchas adjoining the Morales bridge, alongside Molino Bancalari. This camp should be visited there is no better in the province in regard to height, beauty, splendid pastures and picturesque situation

And an opportunity of convincing yourself of this fact is offered you by attending the sale which will be held on the camp itself

On Sunday the 4th of September, at 4 o'clock in the afternoon, we shall proceed to sell to the highest bidder this magnificent piece of camp, divided into lots to place it within the reach of small capitals.

This camp needs no praise from us; any visit from anyone interested in acquiring land for cultivation or pasturage will be quite sufficient

In regard to height it is most elevated, its undulations reminding one of the Banda Oriental.

From the ground a fine view is obtained of Moron, Merino and Bella Vista, &c. With regard to the elevation of the land we remember the remark of a gentleman occupying a high position in the Government—"If it depended on me, I should have the new Capital built here." So much for the height of it.

The land is covered with grasses of the very best kinds suiting for pasturing or for wintering animals. There is an offer to rent the land with a contract at $120,000 m|c per annum. Therefore as agricultural land or for pasture, this ground is unsurpassed, and is equally adapted for either. The land has 2,665 varas frontage on the river Conchas by 3,600 vs depth, it is situated alongside of Morales' bridge, on the right hand side, and has been subdivided in small lots, but can be bought in one lot at option of purchaser.

For plans and further details apply at our mart San Martin 51.

Rheumatism!

After having suffered from the gout for years in Europe, being attended by the best physicians in England, Denmark and Sweden without any result. I have at last after many years study, and great expenses, invented an infallible remedy, which ought to be kept in every house, to keep out this enemy of mankind. It will in a very short time cure any sort of gout or rheumatism, whether acute or chronical, such as pain in the face, chest, neck, or teeth, arthritis in the head hand foot or knee, pains in the side, the back or the hips etc.

This remedy is wadding prepared against rheumatism. To be had at three hard dollars a piece, only by address to Professor H. Kaufmann, 101 Cerrito Street, (altos) Montevideo.

NOW WORKING AT CHIVILCOY.

The attention of Chacareros and others is called to the following important recommendation from Don Lorenzo Martino of Chivilcoy:—

"At the request of Don Gregorio Villafañe and with the greatest personal satisfaction and pleasure I hereby declare that the working of Messrs Clayton and Shuttleworth's Engine and Thresher was all that could be desired, and it would be my greatest satisfaction to have all the Chacareros of this Partido and of Chacabuco and Bragado to be present at the working of these machines, in order that they might have an opportunity of corroborating this Certificate I so willingly give. I consider these machines to be of the most perfect economy and a great encouragement to Chacra work."

THE JUDICIAL CRISIS.

(Continued)

Jan. 24th, 1882

To the Editor of the *Standard*.

Dear Sir

Our subject is needs a dry one, but, if your readers will kindly make allowances at the present stage of matters, and the thermometer will only keep below 100° Fahr., we promise to do our best to infuse freshness and create a greater interest in each of our succeeding letters.

On the other hand, we must crave permission to make these short, so as not to exhaust your limited space, or the patience of your subscribers. In respect of the organization of Provincial and City Law Courts we can only refer readers to the two columns you so kindly published in your issue of the 16th under the same head, and agreeably to the engagement we took then, we now proceed to deal with the competence and duties of the Magistrates, Judges and Courts, beginning with those of the Province of B. Aires.

1.—JUSTICES OF THE PEACE

In the partidos in which there is no Judge of 1st Instance, they have authority to hear all suits whether of a civil or commercial nature, provided the amount claimed does not exceed 20,000 m|c; but, at San Nicolas, Dolores and Mercedes, where a Judge of 1st Instance holds his sessions, we humbly submit that the competence of the Justices of the Peace only reaches as far as the hearing of civil and commercial causes in which relief is sought for sums not beyond 4,000 m|c. With regard to testamentary matters: they can take cognizance of all proceedings when the amount does not exceed 20,000 m|c, whether the party made a will or died intestate, and whether there are minors or not concerned in the proceedings, but all questions relating to inventories and valuations must be decided by the Judge of 1st Instance of the proper judicial department. Moreover; should all the heirs have attained their majority, the Justice of the Peace may prove the will in the common form as regards the distribution, though the total amount bequeathed or left exceed 20,000 m|c. In such cases he must, however, send up the whole of the proceedings to the Judge of 1st Instance to be filed in the Archives.

In respect of house and land leases: the Justices of the Peace hear all questions which may arise, proviso, that the monthly rent does not amount to more than 1,500 m|c for house and 500 m|c for landed property; the total amount of the debt due not being taken into account even should it exceed the Justices jurisdiction as enacted by the statutes. In the country, these same Justices of the Peace also take cognizance of causes which are purely correctional, and of all matters within their attributions as determined by the 'Rural Code,' an English edition of which was translated and published by yourself and Brother-Editor in 1866, which proved a great boon to farmers and landed interests.

2. JUDGES OF THE 1st INSTANCE.

When any matter exceeds the limits assigned by law to Justices of the Peace, it then becomes the duty of the Judge of 1st Instance to take cognizance of it, whatever be the amount of Property claimed or however high the damages applied for. All re-hearings and appeals from the decisions of the Justices of the Peace are heard by these Judges of the 1st Instance whose decision is final in their appellate jurisdiction.

3. COURTS OF APPEAL.

Their mission is circumscribed to hearing all appeals which are lodged against the decisions of Judges of the 1st Instance in their respective judicial Departments; *i. e.* the Court of Appeal of San Nicolas takes cognizance of all causes which have been decided in the 1st Instance by the Judge of that judicial Department; and that of Mercedes hears the Appeals which are lodged against the decisions of the Judges of that judicial Department; and so forth.

4. THE SUPREME COURT.

By way of last Instance, this Court takes cognizance of all those remedies which are sought on the pleas of inapplicability of the law or legal doctrine, and which may be invoked against the decisions of all the Courts of Appeal.

This high Court also takes cognizance, originally, or by virtue of Appeal, of all remedies which are sought with regard to the concordance of all laws, decrees and regulations with the Constitution of the Province, and likewise hears all complaints about refusals or delays of Administration of Justice by the Courts of Appeal of 2d Instance.

We do not specify forms and proceedings, because, we consider that this subject is fitter for counsel than for private parties, who after all only require to get a correct insight into this country's administration of justice, owing to their having engaged, not only their fortunes in this land, but their future and their children's; all of which may be jeopardised at any moment for want of a little attention to common place and every day legal matter—the mere knowing of who's who and what's what!

FIXING THE JUDGES AND COURTS

With regard to fixing: it must be borne in mind that, as a general rule, all suits must be commenced before the competent Judge of the place which has been named for the fulfilment of the contract (should such exist), or, it remains with the plaintiff to say whether he prefers suing before the Judge of the defendant's domicile, (or abode), or before the Judge of the place where the contract was executed (or drawn up); but in the latter case it is necessary that the debtor should be residing there, though only accidentally.

Should an action for real property be commenced; the demand must be entered before the Judge of the place in which the immoveable property is situate, and if the latter is located in different parts of the Province, the suit may be brought before any one of the Judges of these localities, provided the defendant reside in such locality. And, if this co-incidence is not to be met with, the bill must be filed before the Judge of the place in which the most valuable property is situate,—the 'Contribucion Directa' tax being conclusive evidence on that point.

Again, if the action commenced be with regard to moveable property, the demand must be filed before the Judge of the place where such moveable property is to be found, or the plaintiff may take his choice of suing before the Judge of the defendant; domicile.

PROROGATIONS.

We have thought it our duty to call your readers' attention to the above facts, because this procedure not only applies to the Provincial Courts but is in force now as regards Pleading and Practice before the National City Courts in the Capital of the Republic.

There are, it is true, exceptions, but of these more anon, when treating of the Federal Courts. Finally, it is necessary to remember that the above rules are subject to some alterations by the common assent of parties engaged in an adversary suit. Thus, for instance, instead of the Judge appointed by the law taking cognizance of a cause, if the litigants come to an understanding on the point and agree that the case should go before some other Judge of another judicial department, the proceedings will be transferred, on the parties petitioning to that effect, provided the new Judge exercise the same class of jurisdiction. This is what is called 'prorroguing jurisdiction.' Now Prorogations 'are in force' with respect to Provincial Law Courts, but: how about the Courts of law in the Capital or National Tribunal?

We believe there is some doubt, or, at least, that legal opinion is divided on this interesting point. The matter stands thus:—Can any case belonging to the province be brought before the City Courts? or, vice versa; can a matter which should be tried before the Courts of the Capital of the Nation be carried by the consent of parties, before the Provincial Judges, by 'prorroguing' their jurisdiction?.....

In one of your next issues we shall endeavor to inquire into the competence of the Judges and Courts of the Capital of the Nation, and we shall try to describe the various offices performed by the different kinds of 'Escribanos', who exist at present in the Capital of the Nation, and the Province of Buenos Aires.

Yours truly and obliged
B Bertie Marriott.

EDITOR'S TABLE

(Continued from third page)

They are going to make a mull of the Corso this year, by adding to the old streets—Victoria, Peru and Florida—parts of Rivadavia, Maipu, & Piedad, making 40 squares in all. This is too great a distance. The best plan was the one first proposed—to have the Corso up and down Rivadavia, so as to 'aprovechar' of the Exhibition building. The very best news about Carnival is that 'pomos' will be prohibited in the Corso. We say bravo! to this. This idiotic nuisance is quite unknown and would not be tolerated in any European Carnival. There is no fun whatever in it; on the contrary, it is most hurtful: every year people have their sight injured for life by bad scent in pomitos, and the destruction of clothing is enormous. All sensible people will applaud the Lord Mayor for putting down the 'pomo.' Let people who like it ruin their sight, their clothes and their furniture in their own houses, but the public have a right to protection from the silly nuisance.

'Doing for' editors seems to be becoming an unpleasantly popular amusement. The editor of the *Estanciero*, a paper published in Florida, B.O. openly accuses the Gefe Politico there of having hired a man to 'finish' him. Elitoricide is the most shocking of all forms of murder.

The old story. There seems to be something hopelessly out of joint in everything connected with the administration of the Navy. The rumour now runs that Professor Boeuf, who was brought especially from France last year, to direct the Naval School, intends to resign immediately, as he can not pull with some of the Admiralty big-wigs. This is much to be regretted. It is said that M Boeuf will probably be appointed Assistant Director of the Cordoba Observatory.

A mole is to be knocked up at Patagones. It will cost half nothing, as wood is abundant down there, and part of the crew of the Villarino and a squad of General Villegas's troops will do the work.

The latest feature in steamship construction is the power to navigate on land. A boat of this character was recently run across Manhattan island, New York, from the Haarlem river to the Hudson.

Our highly-esteemed contemporary, the *Rio News*, gives the following:—

"The Enthropological Exposition at the Museo Nacional has been postponed until June. The Historical Exposition has just closed. The Fine Arts Exposition has been postponed to the 1st of March. The Industrial Exposition is still in full blast. The rest of the expositions will be mentioned just as rapidly as our space permits.

"Baron van Alphen, the Dutch scientist who, in company with Dr. van Ryckevorsel, was engaged in making a magnetic survey of the coast of Brazil and the Amazon, died in the Portuguese Hospital on the 10th ult. He was a young man, barely 27 years of age, and had been engaged in this survey about one year."

A Competitive Field trial of Automatic Binders was held at Melbourne, in the Province of Victoria, Australia, on the 29th day of November, 1880, under the auspices of the Melbourne International Exhibition and in connection therewith, but under the direction and charge of the National Agricultural Society of Victoria.

The Machines entered for competition were:—

Walter A. Wood's Twine Binder,
Osborne's Wire Binder, Osborne's Twine Binder, McCormack's Wire Binder, McCormack's Twine Binder, Deering's Twine Binder.

(The judges in making their awards did not take into account the material used in binding, whether Wire or Twine, but were governed by the merits of the machine and quality of work done.)

Result of the Trial:

Walter A. Wood's Twine Binder
Was awarded the FIRST PRIZE.

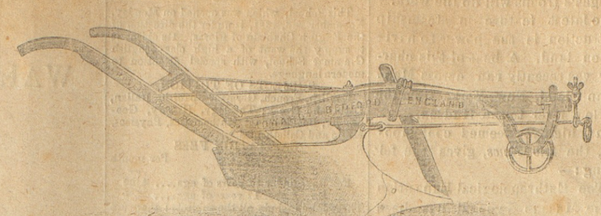
HOWARD'S IMPROVED AMERICAN PLOUGHS



The above represents the well known 'Eagle 75' Plough which, and other sizes, are manufactured by J. & F. HOWARD in the highest style of workmanship, and tens of thousands are in use. Several manifest improvements have been introduced. As shown in the engraving, the body clips the beam, and the 'centre draught' is also taken from the strongest part of the iron body,—thus giving an additional security against the beam breaking at the bolt holes—a very common occurrence with American made Ploughs.

The beam is made of Oak, and can if required be fitted with a steel plate on each side.

The shares are hardened upon J. & F. HOWARD'S well known patented *water-chill* process, which renders them not only tough and hard, but ensures their wearing better and longer than made when by any other process.

Prices of the various sizes, Nos. 19, 19½, 25, 26, 55, 75, &c., sent on application.

The above Machines kept in Stock by the Principal Hardware Merchants.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures; while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only Palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880.—To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London. "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of this being a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

National Money.

The following decree has been issued by the National Finance Minister ordering that from February 1st all national liquidations be made in national money:—

National Finance Department

Buenos Aires January, 22d, 1882.

It being necessary for the E.P. to adopt some measure to secure, without difficulty, the fulfilment of the law of November 5th of last year, which determines the unity of money in the Argentine Republic; and considering:—

That before the time arrives to comply with what is specified in article 8 of said law it is well in order to facilitate the observance of the same, that the national unity be determined as a base of official values.

For although the Law of November 5th of last year allows the use in all documents of other moneys or unities than those named in the same, it does so only for the time being, and until such time as the amounts stipulated in article 7 of said law are coined.

That notwithstanding that the laws of the budget and of custom dues have been sanctioned in harmony with the unity of the money existing previous to said law, it is expedient that henceforward in all documents or liquidations, the equivalent of values be expressed in National Money, which is the sole one that must be used for keeping accounts and whose relation with other moneys in circulation has been fixed by decree of December 2nd, of last year.

For these reasons:—

The President of the Republic

DECREES.

Art. 1. From the 1st of February next, all liquidations which may be made in the National Offices, in fulfilment of the Budget Law for 1882, of decrees or special laws to be complied with in the same year, or of the Customs Law, shall have their equivalents expressed in national money, even when the payment is made in accordance with the former money, and the entries in the account books shall be made in the same form.

Art. 2. From this date all emissions or exchanges of public bonds shall be done for their equivalent in conformity with the unity of the legal money; excepting those whose emissions may have already been decreed, or the printing of which has already been ordered.

Art. 3. All contracts celebrated in any of the moneys allowed, shall express the equivalent in National Money, even though the payment were made in the former.

Art. 4. Let this be communicated, published and inserted in the National Register.

Aviso Municipal

La Comision Municipal, reunida en Consejo, acuerda y ordena:

Art. 1°—Despues de tres meses de la fecha no podra funcionar ninguno de los teatros existentes en la Capital si no tiene colocado para su servicio en el arco de embocadura del proscenio un telon metalico que aisle completamente a este de la sala en circunstancias dadas.

Art. 2°—Durante toda representacion las empresas de teatros estan obligados a mantener guardianes encargados especialmente de este servicio.

Art. 3°—Despues del plazo que señala el artículo 1° no se permitara dar espectaculos en ningun teatro que sus puertas no se abran de dentro para afuera, como lo prescribe la Ordenanza del 29 de Enero de 1871.

Art. 4°—Desde que principie un espectaculo hasta que termine estaran abiertas todas las puertas de entrada del edificio que puedan dar acceso al publico.

Las puertas que conduzcan al proscenio y al resto del edificio, seran cubiertas de planchas de metal.

Art. 5°—No es permitido alumbrar las galerias de dichos establecimientos en las noches de representacion sino con lamparas de aceite no pudiendo hacerse uso para el servicio del gas en todo el interior de los mismos sino de cañeria de fierro incrustada en las paredes.

Art. 6°—Es obligacion de las empresas tener un guardian especial que durante la representacion permanezca al lado del regulador para cerrarlo en caso necesario.

Art. 7°—Es igualmente obligatorio a las empresas poner estos en comunicacion con el Departamento de Policia y a Oficina de Bomberos, colocando interior y exteriormente del edificio hilos electricos, susceptibles de ser utilizados en cualquier momento.

Art. 8°—El deposito de agua para casos de incendio, las cañerias conductores, como el material necesario tiene que estar en relacion con el tamaño del edificio y la cantidad de material inflamable que contenga. La oficina de Obras Publicas en cada caso determinara sus dimensiones.

La misma cuidara en adelante, cuando se le presenten los planos para construcciones de esta clase, de eliminar todo lo posible los materiales inflamables, exigiendo que se haga uso en cuanto se puede de los que no lo son. Entendido que las empresas deben costear el numero suficiente de hombres aptos para el servicio de las bombas.

Art. 9°—La empresa que no diera cumplimiento a estas disposiciones no podra continuar funcionando como tal, a mas de satisfacer la multa de tres mil pesos m/c, que seran destinados a la subsistencia de los pobres del Asilo de Mendigos.

Art. 10—En los edificios que en adelante se construyan con tal objeto, se observara indispensablemente esta regla:

Cada piso en que esta dividido tendra su corredor con salida al exterior, que en ningun caso podra ser de menos de tres metros de ancho.

Art. 11—El cumplimiento de esta disposicion se recomienda al Departamento de Policia interin se dicta el reglamento general de teatros que proveera al caso.

Art. 12—La Secretaria mandara imprimir en una hoja suelta todas las disposiciones sobre teatros y espectaculos publicos incluso la presente ordenanza para entregar un ejemplar a cada empresa que entre a funcionar, la que debera colocarlo en un cuadro en lugar visible y de acceso al publico.
